RE: Reference

Vicki, please feel free to utilize this letter as a reference for WHLLG. As you know, our project in Blue Springs turned out fantastic. Your help and guidance in the early childhood design concepts provided for an excellent end product for our client.

Also, it should be noted that your expertise in the outdoor play space and garden was invaluable. I have heard nothing but positive comments from both the school district and from other clients that have toured the project.

I hope all is well with you and the WHLLG team. I look forward to the next opportunity to work together and would share with any potential client of yours that you are a true professional and your work exceeded our expectations!!
