SafeSpace Concepts is pleased to participate with White Hutchinson in putting together infant toddler spaces for a variety of contexts. Their staff proceed in both a friendly and professional manner, effectively establishing a positive working relationship. They maintain a focus on providing the best environment possible to meet the needs of each client. This focus is maintained from the smallest of details such as slight changes in measurements of a piece to fit a space to coordination of shipping and installation. One of the key things that sets White Hutchinson apart from others is the fact that they continue to represent the needs of their client long after a project is installed. As a Company that has a reputation for quality products, it is reassuring to SafeSpace that White-Hutchinson puts forth the efforts required to create effective environments.
